The State Bank of Indiana.

Indiana Money .- The St. Louis New Era has an article in which it is recommended to commercial men of Commerce, is curious and impressive. It was to send the notes of the State Bank of Indiana homeward, on the alleged ground that its circulation is al-

or against the State Bank of Indiana, or any thing upon either alternative, is the same. else, and nine-tenths of the Whig papers in this State will follow suit. They delight in nothing better than to follow at its stern, and feed on the garbage which it voids. In this case, however, they are all assailing their best friends. The Louisville Journal, on second thought, discovered this, and applied salve to the wound it inflicted; and the only reason why our whig papers fail to do the same, is because, as they assert, "the Locofocos have the management of the Bank." But this does not happen to be the fact, nor will it become so, until the Whig papers can show that the Four directors which the State is graciously permitted to elect, can out-vote the Thirteen directors, representing the Branches, who are almost invariably Whigs.

Now the effects of such attacks as these may be judged of by the following recapitulation of the operations of the State Bank and Branches, which appears in the New York Morning News. If the Whig papers think it promotive of the interest of an institution they so much admire, to continue their misrepresentations, for political effect, why, let them go ahead, and they will soon discover, perhaps, that the final result will be very contrary to what they anticipate. Be it remembered, by the way, that the con- Parson and church, 15 ditions of the Bank here summed up, was its condi- Schools, tion while under whig management exclusively, and Tea, 12 lbs, for which, the "Locofocos" were in no degree re- Coffee, 50 lbs, sponsible. (CMuch sensation has existed in Kentucky, no account of a charge of infanticide, upon his own child, against Lieut. Buford, an officer of the U. S. Army. It seems the affair was exaggerated, by the following from the Frankfort Yeoman :

The statement contained in a number of papers about Lieut. Buford having committed infanticide by murdering his own child at Paducah, Ky., and throwing it into the river, we believed at the time too horrible to be true. In justice to that gentleman and for Representatives in the several counties mentioned: this lady, both of them highly respectable, and having a large number of respectable relatives interested in their reputation, we give the following synopsis of a

"The Louisville Journal, of Wednesday, contains a statement by Dr. John U. Lafon and Mr. O. H. Burbridge, of the facts detailed in evidence on the trial, on the charge preferred against Lieut. Buford, of the U. S. Army, of destroying his own child. The statement is a complete vindication, in perfect accord with the verdict of acquittal rendered by the jury, of Lieut. Buford. It was proved that the child was a deformed abortion of five months, and it was removed by Lieut. B. on account of the horror of his wife at its remaining in her room till morning, or being seen by others, the most natural feeling of a mother's breast under such circumstances. Dr. Wistar's Balsam of Wild Cherry This celebrated remedy is a compound balsamic preparation of the Wild Cherry Bark and Moss of Iceland, combined by a new chemical process with the Extract of Pine. So salutary have been its effects in all cases when administered for Coughs, ASTHMA, CONSUMPTION, or any disease of the lungs, that many of the most distinguished physicians have approved and recommended it, and openly acknowledged it the most valuable medicine ever discovered. It is truly a valuable medicine, and is effecting an immense amount of good in the relief of

We do not wish to trifle with the lives or health of the afflicted, and we sincerely pledge ourselves to make no assertions as to the virtues of this medicine, and to hold out no hope to suffering humanity which facts will not warrant.

We ask the attention of the candid to a few considerations, Nature, in every part of her works, has left indelible marks of adaptation and design.

The constitution of the animals and vegetables of the torrid, is such that they could not endure the cold of the frigid zone, and vice In regard to disease and its cure, the adaptation is not less striking? The Moss of iceland, the Wild Cherry and Pine of all Northern latitudes (and "Dr. Wistar's Balsam," is a compound chemical extract

from these) have long been celebrated for complaints prevalent only in cold climates. Indeed the most distinguished medical men have averied that nature furnishes in every country antidotes for its own Consumerion in its confirmed and incipient stages, Coughs, Asthma Croup and Liver Complaint, form by far the most fatal class of disease known to our land. The case of Thomas Cozens, of Haddonfield, N. J. is related by himself; and that all may know its ENTIRE TRUTH, the statement is sworn to before a Justice of the Peace.

HADDONFIELD, N. J., April 20, 1843. On or near the 12th day of December, 1841, I was taken with a violent pain in the side near the Liver, which continued for about five days, and was followed by the breaking of an ulcer, or something inwardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thought he could do but little for me except give me some Mercury pills, which I refused to take, feeling satisfied that they could do me no good; many other remedies were then procured by my wife and friends, and none ruary, when all hope of my recovery was given up, and my friends of Dr. Wistar's Balsam of Wild Cherry, and got a bottle, which relieved me immediately, and by the use of only three bottles of this medicine, all my pains were removed, my cough and spitting of blood and corruption entirely stepped, and in a few weeks my health was
